Besides promoting your books assiduously online, there are several other methods that may enable you to promote more books.

One is to offer one thing away free of charge with your book, equivalent to a precious bonus item. Or bundle a number of ebooks below one worth, which lowers the value for each book if they had been sold separately.

An efficient method for determining a value is to ship out a survey to your present customers. If these customers have already bought an e book from you, ask for their opinion when it comes to price. Do that by creating a sales page for the new e-book, however don't embody a value on that page. Instead, add plenty of links to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

Another technique is to test out costs by making a variety of duplicate gross sales pages with

totally different prices on every page. Be sure your gross sales copy is strictly the same on every web page, and contains your selling-handle sentence. Then figure out for each web page the conversion ratio between guests to your website and gross sales of your book. This can let you know what your optimum worth is.

Ultimately, in case you've written a book that solves a problem or presents a brand new method, your book will herald each traffic and profits. So make sure you write that promoting-handle sentence that sums up what problem your e-book solves and what the benefits of your 1537 ebook might be to the customers who buy it. And then watch your market come to you!
